

GERARD BONAR

DevOps Manager

gerard.bonar@milliman.com

+1 312 577 2897

Current Responsibility

Gerard leads the Quality Assurance team in Trading Technology at Milliman's Financial Risk Management practice in Chicago, working closely with Software Development, Portfolio Management, and Capital Markets. He is responsible for building and maintaining test processes and environments that identify and eliminate any risks prior to Trading Technology products being released to the market. Gerard also acts as a support resource to Milliman's global trading floors located in Chicago, London, and Sydney.

Professional Work Experience

Gerard has more than 13 years of work experience in technology, starting out as a developer and moving into various QA lead roles. He has worked for companies such as Ericsson Expertise Ireland, Parlano, and UBS.

Education

- Master of Business Administration, Open University Business School, United Kingdom
- HDipIT, NUI Maynooth, Ireland
- Bachelor of Business Studies, Glamorgan University, Wales, United Kingdom
